[www.fatigue.org.url](http://www.fatigue.org.url)

## Current Website Situation

- 1+ GB Mbytes used for ALL data, videos and web page content
- 2 Gbyte commitment from MTS can be increased if necessary
- Maintenance requirements are no problem
- No open items at this time to make site more user friendly, suggestions?
- Submissions can be made via email or ftp

## Issues

- [www.sae.org](http://www.sae.org) and [www.fatigue.org](http://www.fatigue.org) redundant or complementary ?

Data

Information

Knowledge

Progress

## Future of Web Site

- How useful is this?
- What is missing?
- Can this be organized better?
- Volunteers to turn data into information?
